

Vocational & Return to Work Services

Our Return to Work Vocational Services program supports individuals of all abilities into reintegrating the workforce and achieving their employment goals. Through personalized guidance and real-world opportunities, participants build on their strengths while developing professional, social, and functional skills for meaningful, long-term success.

Supported Work Programs

Our Supported Work Programs provide individualized job coaching in community-based settings, helping individuals build skills and succeed at work. While most participants are individuals with brain injuries, the program is open to people of all abilities. Support may be ongoing or serve as a step toward more independent, competitive employment based on each person's goals.
