

Your Neuro Rehabilitation solutions provider for Workers' Compensation.

Hope Network Neuro Rehabilitation is dedicated to providing cost-effective, quality rehabilitation for injured workers who have sustained a catastrophic neurologic injury.

SERVICE CONTINUUM

- Transitional Residential Rehabilitation
- Neurobehavioral Rehabilitation
- Day Rehab
- Specialized Outpatient
- Return to Work Services
- Home & Community-Based Services
- Residential Living

COST MANAGEMENT

Before an admission, our interdisciplinary team and your care manager work together to determine treatment structure and identify discharge plans. So when it's time, your injured worker can experience prompt, smooth transitions to the next level of care – allowing for better outcomes and more cost effective service.

INTERDISCIPLINARY TREATMENT

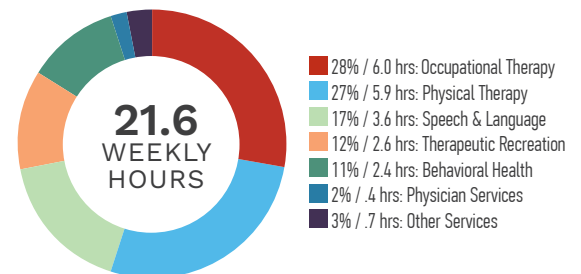

Intensive, comprehensive rehabilitation services are structured around functional treatment priorities, identified and supported by an interdisciplinary team including:

- | | |
|-----------------------------|---------------------------|
| • Physical Therapy | • Neuropsychology |
| • Occupational Therapy | • Neurobehavioral Therapy |
| • Speech-Language Pathology | • Therapeutic Recreation |
| • Social Work | • Vocational Therapy |
| • Physician Services | • Family Education |

Don't let distance get between your injured worker and the right level of care.

Sometimes, the best post-hospital rehabilitation option exists several hours away or across state lines. Hope Network Neuro Rehabilitation offers a Continuum of Care to meet the needs of injured workers wherever they are in their recovery.

Continuum Of Care

TRANSITIONAL REHAB	NEUROBEHAVIORAL REHAB	RESIDENTIAL LIVING
Intensive, specialized therapy in a community-based residential setting that addresses a patient's immediate need to redevelop skills and develop strategies to overcome physical, behavioral and cognitive challenges.	A post-acute program that focuses on reducing behaviors through specialized strategies and adaptations, providing participants the opportunity to overcome difficult cognitive challenges.	Licensed and supported living residences provide individuals the opportunity to live in a safe and supported home-like environment that meets their care needs.
DAY REHAB	SPECIALIZED OUTPATIENT	RETURN TO WORK SERVICES
A personalized, comprehensive program that increases mobility, improves cognitive skills, and expands communication, language, and social skills through a combination of individual and group therapies and activities.	Individual treatment plans focus on improving physical and cognitive function, and other abilities to maximize independence.	Vocational Services help individuals reintegrate into the workplace by providing opportunities to develop and enhance their professional, social, and work-related skills.
