

# DON'T LET DISTANCE GET BETWEEN YOUR PATIENT AND THE RIGHT LEVEL OF CARE.

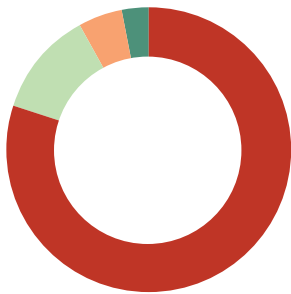

Sometimes, the best post-hospital rehabilitation option for your patient exists several hours away or across state lines. For those who have sustained a brain or spinal cord injury, or other neurological condition, Hope Network Neuro Rehabilitation offers intensive therapy and specialized medical care, and the ability to help discharge patients back to their home community.

## TRANSITIONAL REHABILITATION OUTCOMES:

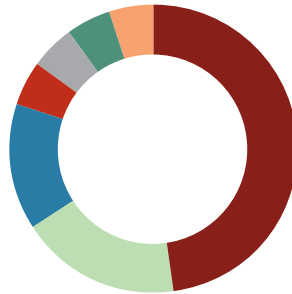

fiscal year 2022
