

HOPE NETWORK<sup>®</sup>  
NEURO REHABILITATION

# LOOKING FOR AN APPROPRIATE LEVEL OF CARE FOR YOUR HARD TO PLACE PATIENT?

Think of Hope Network Neuro Rehabilitation as your discharge resource.

Your patient may meet the criteria for discharge, however they may not be fully recovered or able to safely return home. Our multidisciplinary treatment teams specialize in treating patients who:

- **Are confused or unaware of their current limitations or deficits:**  
We offer safe, therapeutic environments where patients receive up to 25-30 hours/week of ongoing, intensive rehabilitation consisting of multiple disciplines.
- **Have behavioral issues that interfere with recovery:**  
Our team of experts in neurobehavioral rehabilitation include psychiatrists, neuropsychologists, physiatrists, and behavior analysts that focus on modifying challenging behaviors.
- **Are medically stable, but have complex medical issues:**  
Our team of nurses are available to assist with the monitoring, coordinating and delivery of services to treat medical complications that often accompany a significant neurological event.
- **Have limited funding:**  
We have funding specialists who work hard to obtain funding through most commercial health insurance providers, worker's compensation, auto no-fault insurance, and the Medicaid TBI waiver program.

CALL OUR ADMISSIONS TEAM AT 855.407.7575 FOR MORE DETAILS.

WE BELIEVE IN COMEBACKS.
